

MÜCAHİT YILMAZ

Backend Developer | PHP Laravel Developer | Cordova Mobile App Developer

Istanbul, Türkiye | mucahityilmaz.mail@gmail.com | +90 555 686 8524 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Backend Developer with 5+ years of experience building scalable web and mobile-oriented applications using PHP, Laravel, MySQL, Angular, Bootstrap, Cordova/WebView, APIs, payment systems, and analytics. Experienced in backend modules for campaign management, order flows, payment integrations, invoice processes, reporting, and business operations. Strong focus on clean Laravel architecture, reusable business logic, service-based structure, debugging, and maintainable code.

TECHNICAL SKILLS

Backend: PHP, Laravel, Slim, CodeIgniter, REST API, OOP, MVC, service-based architecture

Frontend: Angular, JavaScript, TypeScript, HTML5, CSS3, Bootstrap, jQuery

Mobile: Cordova, WebView, Flutter basics, React Native basics, Ionic

Databases: MySQL, MongoDB, MsSQL, T-SQL

Search & Tools: Elasticsearch, Docker, Git, GitLab, Jira

Integrations: Payment systems, third-party APIs, invoice systems, reporting and analytics systems

PROFESSIONAL EXPERIENCE

Mivento - Backend Developer & Cordova Mobile App Developer | *Istanbul, Türkiye / Remote* | Jun 2021 - Present

- Developed and maintained scalable web and mobile applications using PHP, Laravel, MySQL, Angular, Bootstrap, and Cordova/WebView.
- Built backend modules for campaign management, order flows, payment integrations, invoice processes, reporting, and business analytics.
- Integrated third-party services including payment providers, APIs, Elasticsearch, and invoice-related systems.
- Improved code quality and maintainability by structuring Laravel projects with models, services, enums, reusable business logic, and clean architecture principles.
- Worked on mobile-oriented applications using Cordova/WebView, responsive frontend practices, and API-driven architectures.

Student Internship - Software Development Intern | *Istanbul, Türkiye* | May 2021 - Jan 2022

- Supported web application development, backend processes, testing, and database-related tasks using PHP, MySQL, HTML, CSS, JavaScript, and Git.
- Gained practical experience in real-world software workflows, debugging, teamwork, and maintainable code structure.

Summer Internship - Software Development Intern | *Istanbul, Türkiye* | Aug 2021 - Sep 2021

- Supported basic web development and testing tasks while gaining practical experience in software development workflows, teamwork, and problem-solving.

Enoux - Mobile Developer Intern | *Istanbul, Türkiye* | Aug 2019 - Sep 2019

- Learned mobile application development fundamentals with Flutter and Dart by working on basic mobile app features, UI structure, and navigation.

BOOTCAMPS & COURSES

Teknasyon PHP Bootcamp - Teacher Assistant | *Patika.dev* | Sep 2021 - Oct 2021

- Supported bootcamp participants with PHP fundamentals, backend development concepts, exercises, and project-related questions.

VIVENSE PHP Talent Bootcamp - Participant | *Kodluyoruz* | Feb 2021 - Mar 2021

- Completed an intensive PHP bootcamp focused on backend development, web applications, database operations, and real-world project workflows.

Udemy - Developing CMS Advanced with CodeIgniter 4 | *Online* | 102 hours

Udemy - Laravel with Vue.js Full Stack Development | *Online* | 17.5 hours

EDUCATION

Düzce University - Bachelor's Degree in Computer Engineering | *Düzce, Türkiye* | 2017 - 2021

PROJECTS

MyCalendar.Live - PHP, CodeIgniter 4, MySQL, API, jQuery, JavaScript, CSS3, HTML5, JSON

- Developed a web-based event organization platform for personal, team, and group event management.

Laravel Permissions and Image Upload - PHP, Laravel, MySQL, JavaScript, AJAX

- Built user permission features and AJAX-based image upload functionality.

Enterprise Solution Center CRM - PHP, CodeIgniter, MySQL, JavaScript, HTML5, CSS3, Angular, Ionic

- Developed a basic CRM system with mobile integration for enterprise-level usage.

Real Estate Mobile Project - JavaScript, React Native, PHP

- Worked on a hybrid mobile-oriented real estate application using React Native and PHP backend logic.

Python Flask Flight Reservation System - Python, Flask, SQLAlchemy

- Built a database-driven flight reservation system while learning Python Flask.
